KEY FACTS

- Five purpose-built transdermal patches plus a complete Full Stack bundle.
- Each patch carries a defined active layer - no scoops, no measuring.
- Designed for controlled release across the intended wear period.
- Sold direct at vyrotech.au with Australia-wide shipping.
- Wholesale tiers available for retailers, gyms and pharmacies (35-45% off RRP).

Vyrotech patches are prototype complementary products and are not TGA-registered therapeutic goods.

BOILERPLATE (100 WORDS)

VYROTECH is an Australian performance brand rethinking supplementation through transdermal patch technology. Instead of powders, capsules and complicated routines, VYROTECH patches deliver a defined formulation across the skin in a single wearable step. The range spans five purpose-built patches - Drive, Ignite, Creatine+, Hydrate+ and Shred - plus the Full Stack bundle. Designed for controlled release over the intended wear period, VYROTECH combines formulation science with wearable convenience for training, work and everyday performance. Available Australia-wide at vyrotech.au. The future is transdermal.

MEDIA ASSETS

Product photography, lifestyle imagery and the transdermal technology video are available on the Vyrotech media page:
